However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

Alfa Romeo Spica Fuel Injection

It was the Spica's ability to precisely meter just the right amount of fuel to each cylinder at just the right time that led Alfa to use the system on its U.S.-spec cars, beginning in 1969. While most other European cars were strangled by emissions equipment, the Alfas sold in the U.S. were just as powerful, and driveable, as their home-market counterparts.

Ingram Enterprises, Inc. | Home Page

There are 14 different Spica Injection pumps depending on the model and year of the car and the state of build of the engine. We do have a large supply of pump cores. We usually have the correct pump core in stock for your Alfa, with the exception of the BC Montreal and a few very rare pumps.

Ingram Enterprises, Inc. | Spica Pump Rebuilds

The SPICA injection pump is generally very reliable. There is only one injection pump failure that is serious enough to cause engine stoppage and is common enough to be of practical concern. By far, most problems experienced by SPICA owners are fuel supply related and not within the injection pump itself. When troubleshooting, rule out ignition causes first.

SPICA Fuel Injection Roadside Fault Analysis and Repair

The Spica fuel injection is a mechanical system which uses a series of levers to vary mixture according to temperature. The thermostatic actuator is the temperature sensor. The temperature sensor we are all familiar with is a thermometer. As temperature goes up, mercury in the glass bulb expands and is forced up the tube.

Alfa Tune-up Day Instructions

The injection pump (I3), (SPICA AIBB. 4C.S.75), has four variable displace- ment plungers controlled by the control unit thru a rack. The plungers are actuated by conn.rods driven by a crankshaft revolving at half engine speed. The pump is lubricated with the engine oil drawn from the main gallery just after the main filter.

Spica Injection | Alfa Romeo Forum

The fuel supply of the SPICA Fuel Injection System has traditionally proven to be the most troublesome part of the system. Specifically, the most common failures are: 1) Clogging of the rear in-line fuel filter. 2) Weak or failed fuel supply pumps. 3) Rusted, leaky, and dirty fuel tanks (that clog rear fuel filters).

Alfa Romeo Complete Spica Fuel Injection Kit Alfetta GT ...

When Alfa Romeo introduced Spica fuel injection on US cars, it was considered a mystery and the belief, at the time, was that it was unreliable and beyond the understanding of the average enthusiast. Wes Ingram changed this perception, and through his book and rebuild service has kept many cars from being converted to Weber carburetors.
