The correct answer is : Watch this video for Quick Review; 6. The concentrations of the reactants, A and B, and the initial reaction rates (just after $t = 0$) for the following reaction in three different experiments are reported in the table. Complete the expression for the rate law for this reaction and determine the rate constant, k .

Assessment Review - FlinnPREP

15.3.2 External Methods of Quality Assessment. Internal methods of quality assessment always carry some level of suspicion because there is a potential for bias in their execution and interpretation. For this reason, external methods of quality assessment also play an important role in quality assurance programs.
