Mini R50 R52 R53 Car Warning Lights - Diagnostic World

It'll never match the factory forced induction cars, but it can still be fun. There were some early attempts at turbo kits for the R50, but they proved unreliable and in the end less powerful than factory cars. In most street driving situations, an R50 can hang with a R53, but you'll have to keep the engine in the upper end of the rev range.
