In *Sitting Kills, Moving Heals*, Vernikos uncovers the unsuspected medical connection between the health dangers of weightlessness in space and the chronic diseases caused by sedentary lifestyles here on Earth. In her research at NASA, Vernikos discovered that movement that resists the force of gravity is essential to good health.

Sitting Kills, Moving Heals by Joan Vernikos, Everyday ...

Simply standing up over 30 times a day is a powerful antidote to long periods of sitting and is more effective than walking. There are virtually unlimited opportunities for movement throughout the day, from doing housework or gardening, to cooking and even just standing up every 10 minutes.

developing simple new lifestyle habits at the office can reverse the symptoms of sitting disease and even aging itself, and lead to a life of bountiful health.

[PDF] Sitting Kills Moving Heals Download Full - PDF Book ...

Sitting Kills, Moving Heals is the title of a book by exercise physiologist Dr. Joan Vernikos. Her argument—one that has been confirmed by other scientists in a new field called “inactivity physiology” is not that sitting is necessarily bad for us; just that we spend far too much time doing it. The real problem is inactivity.
