Like APQP and PPAP, to maximize the benefits of SPC and MSA, you must gain a deeper understanding of how they work together. AIAG's Applied SPC and MSA for Practitioners class improves your integration of these complementary Core Tools, helping your organization develop a higher quality process control system.

## **Your Pathway to Mastering the Quality Core Tools - AIAG**

AIAG has released a common supplier management process developed by tier 1 automotive suppliers for use with tier 2 suppliers (CQI-19). It focuses on current automaker concerns, e.g. "pass through" characteristics, risk management, quality involvement in sourcing selection from the pre-selection phase through launch to production monitoring, escalation and development as applicable.
