Pollard, Stanford University, California. Raymond C. Fletcher, Pennsylvania State University. Alternative site: Cambridge University Press

Structural Geology on the Web
These lecture notes are part of a series of lectures available on the geology department website at Tulane University. Topics covered include criteria for the classification of igneous rocks, field identification of minerals present in hand sample, thin section examination and chemical analysis.

Tulane University Petrology Lecture Notes Collection ...
Geology is a major branch of the physical sciences and involves the study of the earth. Geology is divided into two main fields: physical geology (the study of earth matter and influencing forces) and historical geology (the history of the earth). Geology includes the study of rocks, soils, mountains, rivers, oceans, and caves.

Geology | Newcomb-Tulane College Career Services
Sarah Jaye Oliva, right, a Tulane University PhD student, works with Amani Laizer, a University of Dar-es-Salaam student, to make soil gas measurements in Tanzania in 2018. CO2 gas is flowing from a fissure where molten rock moved up a crack in the Earth's crust after a Magnitude 5.9 earthquake and the Oldoinyo Lengai volcano (background ...
