all the major environmental issues and how they connect to the state of our health, stability of our economy, capacity of our societies, perseverance of wildlife, balance of nature and prosperity of our children while discovering ways to live healthier, save money, build community and make a difference.

About - Everything Connects

A single line swirls, connecting objects, people, and even planets. The author begins with literal connections and then moves outward: We are connected to our bodies, to others, to animals, and to all things humans have created.
