Parts for Volvo D42 - Marine Engine Parts

Volvo originally lacked the resources to develop their own diesel engines. To fill the gap, the 3610 cc 4D "Dorset" OHV diesel inline-four engine built by Ford for their Fordson Major tractor was used, beginning in 1963. It was installed in the Volvo 425 (Snabbe) and the 435 (Trygge) until 1966, when a more powerful Perkins unit replaced it. The so-called D36 only has 65 PS (48 kW).

Volvo Penta will offer an IMO III engine range for IPS, inboard, genset, and auxiliary applications. Based on SCR exhaust aftertreatment technology, our robust solution is designed for tough marine conditions. The system is built to cope with high sulfur fuel and sustain high back pressure, while maintaining engine efficiency and driveability.

they ordered their engines from the engine manufacturer Penta in Skövde. The first engine was the inline four-cylinder side valve 28 hp (21 kW) Type DA. In 1931, Volvo acquired a majority of the Penta ...

List of Volvo engines - Wikipedia

Volvo, like most european makers, build engines to get good fuel mileage rather than being the fastest on the block. European trucks generally are limited to 80-90 km/h so they're slow going but when you're paying \$5-6/gallon for fuel and a full tank will cost you a grand or more, you're going to want the most efficient engine possible.

Volvo D42 | Northwest Diesel Parts

The post was nothing wrong with the d2 engine, i simply responded. I also run a d2 on my fleet and that has just had its 3rd service (is just 12 months old) so is a mile muncher and only issue that it has had (touch wood) is a clutch that occasionally does not return (Volvo don't want to know as always fine by the time it gets in but that is generally the same with most marques regardless of ...
